

Generic Transaction between Sigma Engines

```
enum ActionType {  
    GET_SIGMA, TXN_REQUEST  
}
```

```
message SRequest {  
    URI self, target  
    ActionType action;  
    STransactionRequest  
        transaction_request;  
}
```

```
enum ResponseType {  
    OK, ERROR, URI, TXN_RESPONSE  
}
```

```
message SResponse {  
    ResponseType type;  
    URI self, uri;  
    string error;  
    STransactionResponse  
        transaction_response;  
}
```
